Protect your electrical equipment with an Energy Shield Whole House System

An Energy Shield Whole House System includes:

- Service Entrance Equipment
- High-Quality Surge Protection Strips
- Up to \$50,000 in Warranty Protection

The basic plan protects most homes; however, MVEA electrical services personnel can assess your needs and install the system that works best for you. For the do-it-yourselfer, MVEA can discuss your needs and sell you the equipment that best fits those needs.
