

# Affordable Lighting from Just \$9.63 per month

*Here is a low cost way to have an outdoor light for your home or business.*

- ☑ Provide lighting and help protect your property for as little as \$9.63/month.
- ☑ The monthly rental charge includes the electricity needed to operate the light.
- ☑ There is no light switch. Our High Intensity Discharge (HID) fixtures have automatic photo cells. The lights come on at dusk and go off at dawn.
- ☑ Free maintenance and bulb replacements by MVEA.
- ☑ Initial term of the outdoor lighting contract is one year.

If you would like to order the installation of an outdoor light fixture, please go to our website at [www.mvea.coop](http://www.mvea.coop) and go to the **Residence** tab and select **Security Lighting** for a **Security Light Installation Form**. Upon receipt, a MVEA representative will contact you to finalize the request and lighting contract.

## Making A Difference - Operation Round-Up

MVEA Members have contributed over \$1.7 million to the Operation Round-Up fund to date. Your contributions go directly to our communities, organizations, schools and our members in need. Your small change makes a BIG difference in our communities. The average contribution by a member from rounding up their bill each month is about \$6 per year - less than a single meal at a fast food restaurant! But, this \$0.50 per month adds up to a big benefit for our communities and members with emergencies.

Grants are awarded by an independent board of directors comprised of members from MVEA service territory. If you represent a non-profit organization, a community or are an individual with special needs call Karen Logan at 719-495-2283 or 800-388-9881, or check out the website at [www.mvea.coop](http://www.mvea.coop) and click the **Community** tab and then **Round-Up** for applications.
